2020/July New Braindump2go MS-300 Exam Dumps with PDF and VCE Free Updated Today! Following are some new MS-300 Real Exam Questions!
QUESTION 145
SIMULATION Please wait while the virtual machine loads. Once loaded, you may proceed to the lab section. This may take a few minutes, and the wait time will not be deducted from your overall test time. When the Next button is available, click it to access the lab section. In this section, you will perform a set of tasks in a live environment. While most functionality will be available to you as it would be in a live environment, some functionality (e.g., copy and paste, ability to navigate to external websites) will not be possible by design. Scoring is based on the outcome of performing the tasks stated in the lab. In other words, it doesn't matter how you accomplish the task, if you successfully perform it, you will earn credit for that task. Labs are not timed separately, and this exam may have more than one lab that you must complete. You can use as much time as you would like to complete each lab. But, you should manage your time appropriately to ensure that you are able to complete the lab(s) and all other sections of the exam in the time provided. Please note that once you submit your work by clicking the Next button within a lab, you will NOT be able to return to the lab. You may now click next to proceed to the lab.

Instructions
Username and Password Use the following login credentials as needed: To enter your username, place your cursor in the Sign in box and click on the username below. To enter your password, place your cursor in the Enter password box and click on the password below. Microsoft 365 Username: admin@LODSe608500.onmicrosoft.com Microsoft 365 Password: 0=M5w*%rYxfjIf the Microsoft 365 portal does not load successfully in the browser, press CTRL-K to reload the portal in a new browser tab. The following information is for technical support purposes only: Lab Instance: 11134591 You need to ensure that a user named Cameron White can modify the SharePoint Online settings of your Microsoft Office 365 tenant. The solution must prevent the user from modifying the Exchange Online settings and the Microsoft Teams settings. To complete this task, sign in to Microsoft 365 admin portal. Answer: Assign admin roles to users using Roles. 1. In the admin center, go to Roles > Roles to view all of the admin roles available for your organization. 2. Select the admin role that you want to assign the user to. (SharePoint admin) 3. Select Assigned admins > Add. 4. Type the user's display name or username, and then select the user from the list of suggestions. (Cameron White) 5. Select Save, and then the user will be added to the list of assigned admins. Reference:

You need to ensure that a user named Irvin Sayers can activate features for a SharePoint Online site named Sales and Marketing. The solution must use the principle of least privilege. To complete this task, sign in to Microsoft 365 admin portal. Answer: 1. On your website or team site, click Share

If you see Members instead of Share, click Members, and then click Add members. 2. By default, the Share dialog that appears displays the message Invite people to Edit or Invite people. This invites the users who you add to join the SharePoint Members group. To choose a different group and permission level, click Show options and then choose a different SharePoint group or permission level under Select a group or permission level.

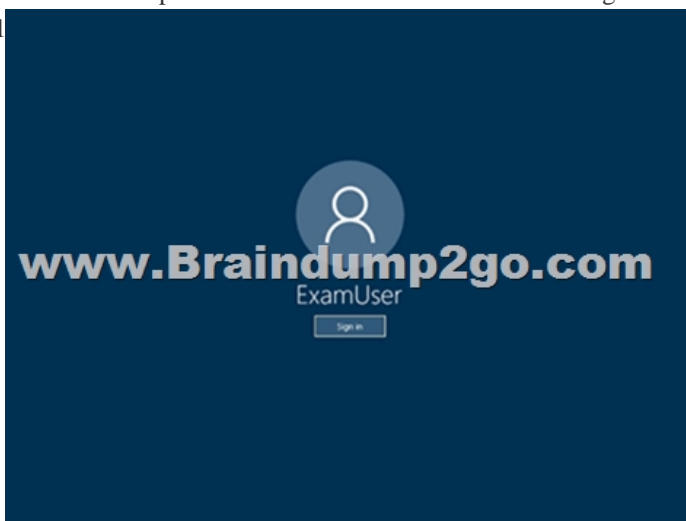

3. In the Enter names, email addresses, or Everyone box, enter the name or email address of the user or group that you want to add. When the name appears in a confirmation box below your entry, select the name to add it to the text box. 4. If you want to add more names, repeat these steps. 5. (Optional) Enter a personalized message to send to the new users in Include a personal message with this invitation. 6. Click Share. Reference: <https://docs.microsoft.com/en-us/sharepoint/customize-sharepoint-site-permissions>

QUESTION 147 You have a Microsoft 365 subscription. Each user has a mapped drive on their computer where they store personal files. Some users store large amounts of data. You plan to migrate the data to Microsoft OneDrive for Business. You need to reduce the impact on the network as you migrate the files to OneDrive. What should you do? A. From the OneDrive admin center, configure the Sync settings. B. From a Group Policy object (GPO), configure the Set the maximum percentage of upload bandwidth that OneDrive.exe uses setting. C. From a Group Policy object (GPO), configure the Allow syncing OneDrive accounts for only specific organizations setting. D. From the OneDrive admin center, configure the Storage settings. Answer: B

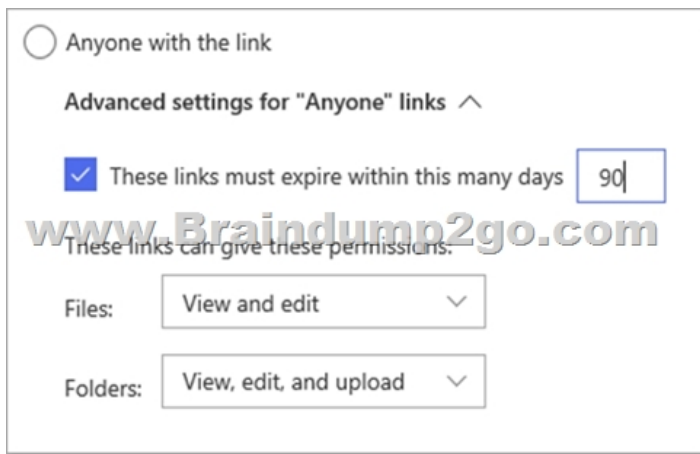

QUESTION 148 You use Microsoft OneDrive for Business. Users report that they cannot sync ZIP files by using OneDrive. Users can sync other file types. You need to ensure that the users can sync all files from any device. Which cmdlet should you run? A. Set-SPOTenantTaxonomyReplicationParameters ?ReplicatedGroups "" B. Set-SPOTenantSyncClientRestriction ?ExcludeFileExtensions "zip" C. Set-SPOTenantTaxonomyReplicationParameters ?ReplicatedGroups "zip" D. Set-SPOTenantSyncClientRestriction ?ExcludeFileExtensions "" Answer: D

Explanation:

You need to ensure that all Microsoft OneDrive sharable links expire three days after the links are created. To complete this task, sign in to Microsoft 365 admin portal. Answer: 1. Go to the Sharing page of the new SharePoint admin center, and sign in with an account that has admin permissions for your organization. 2. Navigate to Advanced settings for "Anyone" links"

Link expiration - You can require all "Anyone" links to expire, and specify the maximum number of days allowed. Link permissions - You can restrict "Anyone" links so that they can only provide view permission for files or folders. If you are using file requests, the link permissions must be set for View and edit for files and View, edit, and upload for folders.3. Set the These links must expire within this many days option to 3.Reference:<https://docs.microsoft.com/en-us/sharepoint/turn-external-sharing-on-or-off>

QUESTION 150SIMULATIONPlease wait while the virtual machine loads. Once loaded, you may proceed to the lab section. This may take a few minutes, and the wait time will not be deducted from your overall test time. When the Next button is available, click it to access the lab section. In this section, you will perform a set of tasks in a live environment.
