You have a Windows Server 2016 failover cluster that contains two servers named Server1 and Server2. You need to apply patches to Server1. Which two commands should you run before you apply the patches? To answer, select the appropriate options in the answer area. Answer: QUESTION 143Hotspot QuestionYour network contains an Active Directory forest named contoso.com. You need to add a new domain named fabrikam.com to the forest. What command should you run? To answer, select the appropriate options in the answer area. Answer: Explanation:[https://technet.microsoft.com/en-us/library/hh974722\(v=ws.630\).aspx](https://technet.microsoft.com/en-us/library/hh974722(v=ws.630).aspx)QUESTION 144Hotspot QuestionYour company has a main office and a branch office. The two offices connect to each other by using a WAN link. Your network contains an Active Directory forest named contoso.com. The forest contains a domain controller named DC1. All of the domain controllers are located in the main office. You install a read-only domain controller (RODC) named RODC1 in the branch office. You create a user account for a new user named User1. You add User1 to the Allowed RODC Password Replication Group. User1 starts work on Monday. You are notified on the SAN and configure both servers to connect on Monday. You need to ensure that User1 can log on in the branch office site on Monday. Which command should you run? To answer, select the appropriate options in the answer area. Answer: Explanation:

[https://technet.microsoft.com/en-us/library/cc742095\(v=ws.11\).aspx](https://technet.microsoft.com/en-us/library/cc742095(v=ws.11).aspx)QUESTION 145Hotspot QuestionA virtual machine named VM1 is running in the failover cluster. The role for VM1 is configured as shown in the following exhibit. Use the drop-down menus to select the answer choice that completes each statement based on the information presented in the graphic. Answer: QUESTION

146Hotspot QuestionYour network contains an Active Directory domain named contoso.com. The domain contains two servers named Server1 and Server2 that run Windows Server 2016. Server1 has IP Address Management (IPAM) installed. Server2 has the DHCP Server role installed. The IPAM server retrieves data from Server2. You create a domain user account named User1. You need to ensure that User1 can use IPAM to manage DHCP. Which command should you run on Server1? To answer, select the appropriate options in the answer area. Answer: QUESTION 147Hotspot QuestionYou have a server named VM1. VM1 is a virtual machine on a Hyper-V host that runs Windows Server 2016. You need to create a checkpoint that includes the virtual machine memory state of VM1. What commands should you run? To answer, select the appropriate options in the answer area. Answer: QUESTION 148Hotspot QuestionYou have a Hyper-V host that runs Windows Server 2016. The Hyper-V host has a virtual machine named VM1. You have a VHD named VHD1.vhdx that has a generalized image of Windows Server 2016. You plan to create multiple virtual machines that will use the generalized image. You need to create differencing disks based on VHD1.vhdx. What command should you run? To answer, select the appropriate options in the answer area. Answer: Explanation:

<https://technet.microsoft.com/en-us/itpro/powershell/windows/hyper-v/new-vhd>QUESTION 149Hotspot QuestionYour network contains an Active Directory domain named contoso.com. The domain contains a domain-based Distributed File System (DFS) namespace named Namespace1. You need to view the shares to which users will be redirected when the users attempt to connect to a folder named Folder1 in the DFS namespace. What cmdlet should you run? To answer, select the appropriate options in the answer area. Answer: Explanation: QUESTION 150Hotspot QuestionYou have a DNS server named Server1. The forwarders are configured as shown in the Forwarders exhibit. (Click the Exhibit button.) The Advanced Settings are configured as shown in the Advanced exhibit. (Click the Exhibit button.) The Root Hints are configured as shown in the Root Hints exhibit. (Click the Exhibit button.) Server1 does not contain any DNS zones. For each of the following statements, select Yes if the statement is true. Otherwise, select No. Answer: Explanation: Recursion is disabled so internet hosts cannot be resolved. The recursive test fails because recursion is disabled. Server1 is not configured as a root server. The forwarders list would be greyed out if it was. QUESTION 151Hotspot

QuestionYou have a server named Server1 that runs Windows Server 2016 server. Server1 has the Docker daemon configured and has a container named Container1. You need to mount the folder C:Folder1 on Server1 to C:ContainerFolder in Container1. Which command should you run? To answer, select the appropriate options in the answer area. Answer: QUESTION 152Note: This question is part of a series of questions that present the same scenario. Each question in the series contains a unique solution that might meet the stated goals. Some question sets might have more than one correct solution, while others might not have a correct solution. After you answer a question in this sections, you will NOT be able to return to it. As a result, these questions will not appear in the review screen. You have a Hyper-V host named Server1 that hosts a virtual machine named VM1. Server1 and VM1 run Windows Server 2016. The settings for VM1 are configured as shown in the exhibit below. You need to ensure that you can use the

Copy-VMFile cmdlet on Server1 to copy files from VM1.Solution: You need to enable the Data Exchange integration service for VM1.Does this meet the goal?A. YESB. NOAnswer: BExplanation:Guest Services:This is a new Integration Services component introduced in Windows Server 2012 R2 that is disabled by default.Guest Services enables the copying of files to a virtual machine using WMI APIs or using the new Copy-VMFile PowerShell cmdlet **!!!RECOMMEND!!!**1.|2018 Latest 70-743 Exam Dumps (PDF & VCE) 237Q Download:<https://www.braindump2go.com/70-743.html>2.|2018 Latest 70-743 Study Guide Video: YouTube Video: [YouTube.com/watch?v=wEPdR7Qdgsg](https://www.youtube.com/watch?v=wEPdR7Qdgsg)
