QUESTION 136 You have a SharePoint Server 2013 server farm and a Microsoft Exchange Server 2013 organization. You need to provide a compliance officer with the ability to locate content in both Exchange Server 2013 and SharePoint Server 2013 based on keyword searches. The compliance officer must be able to prevent the content from being deleted by users. Which site template should you use? A. Document Center B. Records Center C. eDiscovery Center D. Enterprise Search Center Answer: C Explanation: You can manage the discovery process for Exchange Server 2013 from a SharePoint eDiscovery Center.
