A user named User1 from a partner organization is permitted to sign in and use the Office 365 services. User1 reports that the password expires in ten days. You must set the password to never expire. Changes must NOT impact any other accounts. You need to update the password policy for the user. Which Windows PowerShell cmdlet should you run? A. Set-MsolPasswordPolicy B. Set-MsolPartnerInformation C. Set-MsolUserD. Set-MsolUserPassword Answer: C Explanation:

<http://onlinehelp.microsoft.com/en-ca/office365-enterprises/hh534387.aspx> QUESTION 28 Drag and Drop Question You are the Office 365 administrator for your company. Users report that their passwords expire too frequently, and they do not receive adequate notice of password expiration. Account passwords must remain active for the longest duration allowed. Users must receive password expiration notifications as early as possible. You need to configure the password expiration policy. How should you set the policy on the password page of the Office 365 admin center? To answer, drag the appropriate duration to the correct location. Each duration may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.

Answer:

QUESTION 29 Drag and Drop Question A company has 50 employees that use Office 365. You need to disable password expiration for all accounts. How should you complete the relevant Windows PowerShell commands? To answer, drag the appropriate Windows PowerShell segment to the correct location in the answer area. Each Windows PowerShell segment may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.

Answer:

QUESTION 30 Drag and Drop Question A company deploys an Office 365 tenant. All employees in the human resources (HR) department must use multi-factor authentication. They must use only the Microsoft Outlook client to access their email messages. User1 joins the HR department. You need to help User1 configure his account. Which three actions should you perform in sequence? To answer, move the appropriate actions from the list of actions to the answer area and arrange them in the correct order.

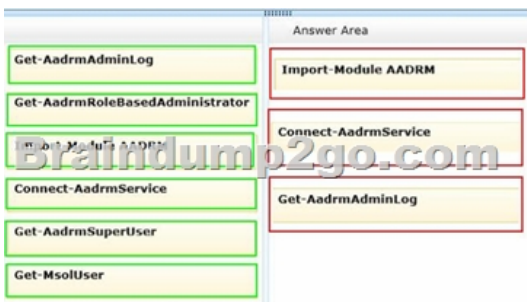

Answer:
